WORK EXPERIENCE

Space roaming company |(2020-2021)

I worked as front-end web developer, Build the front - end interface for himma website (a community project that start with the station last year) and building this site was the beginning that leads me to build the Front - end interface for the site of the company (space roaming) .

Create design idea| JUNE-2021

My design vision enabled the company (space Roaming) to join Orange organization , one of the organizations specialized in developing start - up companies and business management , also I helped the company to build the visual identity and many of social media posts .

I was in charge of iot (internet of thing) projects department | July- 2021

Capo information technology company | 2022

I worked as front-end web developer, in this period I designed and programmed many of websites projects.

Also I worked as a data entry |2022
